PROFESSIONAL SUMMARY:

Cybersecurity Diploma graduate with a GPA of 4.98/5.00 and strong foundational knowledge in network security, vulnerability assessment, risk analysis, and cybersecurity operations. Experienced in Python programming, network traffic analysis, and server administration through academic projects and practical internship experience. Seeking an entry-level cybersecurity opportunity to apply technical skills, contribute to organizational security, and continue professional development.

EDUCATION:

Diploma in Cybersecurity
College of Applied Studies, King Saud University
2024 – 2026
GPA: 4.98 / 5.00.

Bachelor's Degree in English Language
King Faisal University
2016.

Diploma in Business Administration
Creative Center for Studies and Consulting, King Abdulaziz University
2020.

TECHNICAL SKILLS:

- Cybersecurity Fundamentals
- Network Security
- Vulnerability Assessment
- Risk Assessment
- Python Programming
- Wireshark
- Linux
- Windows
- Network Traffic Analysis
- DNS
- SSL
- Firewall Configuration
- Information Security Fundamentals.

PROJECTS:

Malicious URL Detection and Classification System (Graduation Project)

- Developed a machine learning-based system to classify malicious and legitimate URLs.
- Extracted and analyzed URL features to improve threat detection accuracy.
- Implemented data preprocessing, prediction, and result visualization functionalities.
- Achieved classification accuracy exceeding 90%.

Employee Registration System | Python

- Developed an employee registration and management system using Object-Oriented Programming (OOP).

- Implemented inheritance, classes, and input validation mechanisms.
- Designed an interactive menu-driven interface for employee management.

Student Grades Analysis System | Python

- Developed a Python-based application for student performance analysis.
- Implemented sorting algorithms and statistical calculations.
- Generated reports including maximum, minimum, average, median, and mode grades.

INTERNSHIP EXPERIENCE:

Cybersecurity Intern

Experts of Information Technology (ECIT)

January 2026 – May 2026.

- Participated in technical reviews and analysis of web and mobile application requirements.
- Assisted in documenting technical observations and project requirements.
- Evaluated hosting solutions and contributed to selecting secure server environments.
- Configured Linux server environments and Nginx web server.
- Assisted with DNS configuration, SSL certificate implementation, and firewall setup.
- Worked with MySQL databases and backup procedures.
- Participated in website performance testing, input validation, and basic security assessments.

CERTIFICATIONS & TRAINING:

- Network Attack Detection and Analysis Using Wireshark
- Computer Network Analysis Using Wireshark

PROFESSIONAL EXPERIENCE:

HR Operations Specialist

TechnoVal Company

Administrative Officer

Abdulaziz Al-Saif Establishment

Sales Representative

Sodas Company

Volunteer Teacher

Various Educational Centers

SOFT SKILLS:

- Communication
- Teamwork
- Problem Solving
- Time Management
- Adaptability
- Continuous Learning

LANGUAGES:

Arabic: Native

English: Professional Working Proficiency
